

Calcium ammonium nitrate (CAN) N27

Highly efficient nitrogen fertilizer with calcium.
 Contains nitrogen in both ammoniacal and nitric forms to provide
 plant nutrition throughout the whole growing period.
 CaO partly offsets the soil acidification.

Appearance	Greyish-white granules
Total Nitrogen (N), max	27%
of which	
nitric N (N-NO ₃), max	13.5%
ammoniacal N (N-NH ₄), max	13.5%
Calcium CaO (Ca), min	12% (8.6%)
Moisture, max	1%
Granulometric composition:	
under 1 mm, max	1%
3.15-4 mm, min	25%
2-5 mm, min	95%
under 6.3 mm	100%
Granule static strength, min	3 MPa
Free flowing	100%

Packaging and transportation:

CAN is available in bulk or big-bags (500-1000 kg).
 Should be stored under cover.
