

# NS 30:7

URALCHEM's innovative product.  
 Perfectly balanced ratio of Nitrogen: Sulphur.  
 Combination of ammoniacal and nitric forms of nitrogen provides  
 plant nutrition during the entire growing period.  
 Improves quality of grain, increases oil content in oil crops,  
 as well as protein in cereals.

Appearance	White to light grey-yellowish granules
Total nitrogen (N)	30±1%
of which	
nitric N, max.	12%
ammoniacal N, min.	18%
Sulphur S (SO <sub>3</sub> ), min.	7% (17.5%)
Moisture content, max.	1%
Granulometric composition:	
under 1 mm, max.	1%
2-5 mm, min.	95%
under 6.3 mm	100%
Granule static strength, min.	3 MPa
Friability, min.	100%

## Packaging and transportation:

NS 30:7 is available in bulk or big-bags (500-1000 kg).  
 Should be stored under cover.

System of Management Certified for Compliance  
 with ISO 9001, ISO 14001 and OHSAS 18001
